

Technical Information:

- Installation Site: Flat Roof
- Module Orientation: Landscape
- Material: Aluminum 6005-T5
- Max Wind Speed: <60m/s
- Max Snow Load: <1.4 kN/M²
- Tilt Angle: 5° ~ 30°
- Warranties: 12 Years

Features & Benefits

- Non-Penetrating to roof
- Pre-assembled parts for simple and fast installation
- Minimize roof space limitation
- Fixed angle or adjustable angle both acceptable
- Rail-less
- Suitable for all orientations installation
- Optimize high power production

Components List

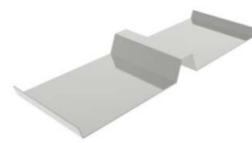

East-West Flat Roof Mount

Mid Clamp

End Clamp

Ballast Plate

Pre-assembled Mount Installation
