

Stainless Steel Ballasted Flat Roof Mount

Features & Benefits

1. Few component and easy install
2. Stainless Steel 304 Material, high anti-corrosion performance
3. Using long-span cement block replace wind deflector, which has strong windproof performance and low cost.

Specification	
Tilt Angle	5° 、 10°
Max Wind Speed	42m/s
Max Snow load	1.4KN/m2
Material	SUS304

Components List

① Front Ballast Leg

② Mid Ballast Leg

③ Back Ballast Leg
